

Game On!

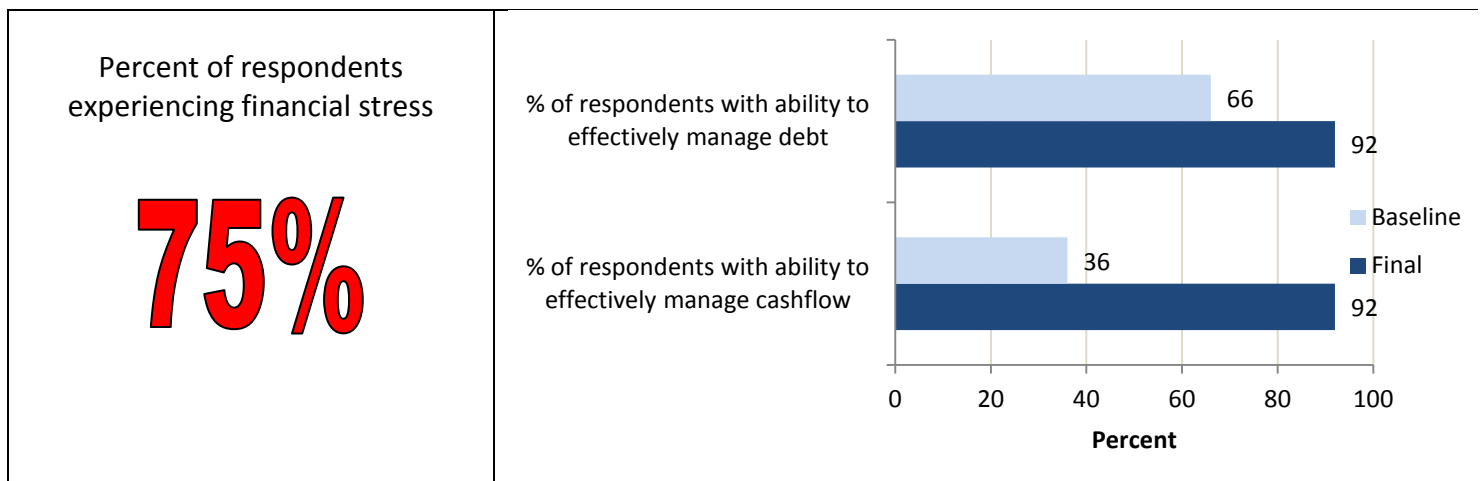

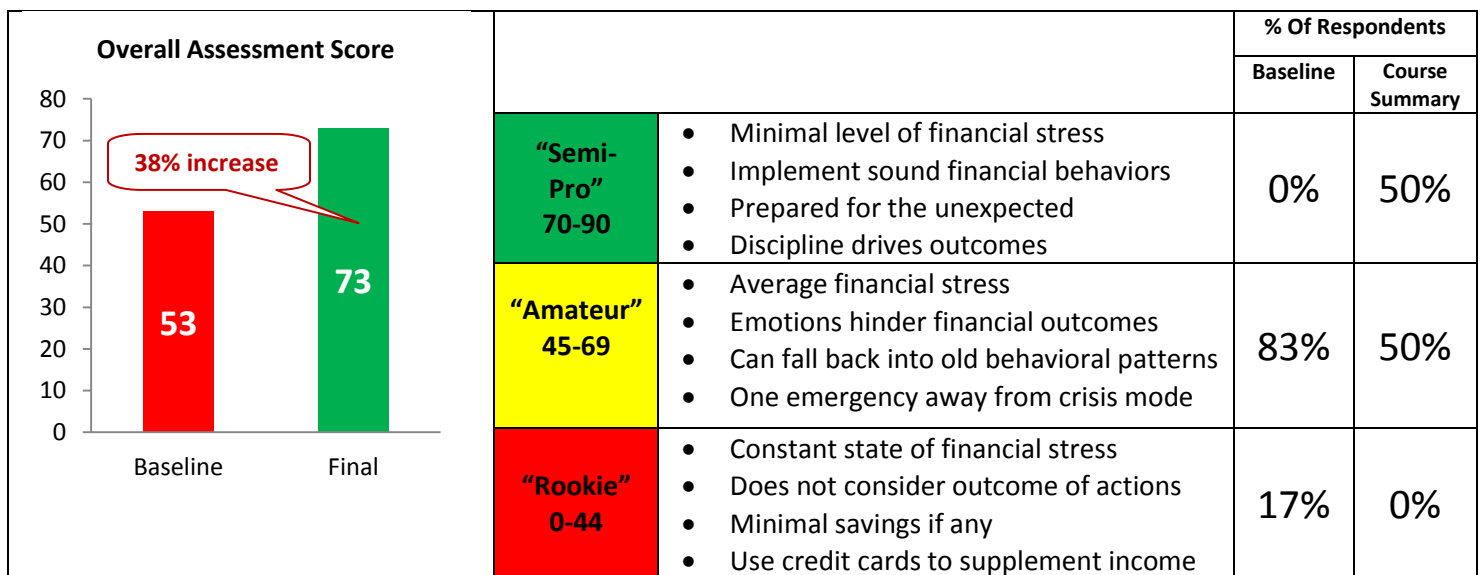

JANCOA Results

Thank you for partnering in the Game On lifestyle program. Our goal is to provide positive life transformations by establishing new mental models which impact the professional and personal lives of those we serve.

Summary

The Game On program has successfully increased the overall financial health of respondents by 38%. 83% of respondents ranked in the “Amateur” classification after tabulating baseline assessment scores. Upon training completion, 50% of respondents were ranked Semi-Pro and Amateur. There was a 39% increase in ability to manage debt and a 155% increase in ability to manage cash flow. If employees continue to implement Game On program strategies and techniques, we are confident their responses to stress triggers and day-to-day financial decisions will produce positive results.

The information below captures respondents’ pre and post program results. An overall assessment score was calculated to determine the effectiveness of the training services provided.

100% of respondents stated the educational content of the Game On program can be used for self development.

Employee Testimonials

“I now have a savings account and have made some deposits.”

“...Life changing workshop. Workshop was great.”
